

OSMANY CORTEGUERA

osmany.corteguera@gmail.com | 786-916-0908

EDUCATION

Massachusetts Institute of Technology (MIT)

Master of Engineering in Electrical Engineering and Computer Science

Bachelor of Science in Computer Science and Engineering, Minor in Mathematics

Cambridge, MA

Jan 2019 – May 2020

Aug 2014 – Jun 2018

- Relevant Coursework: Statistical Inference, Software Development, Machine Learning, Data Analysis.
- Graduate GPA: 5.0/5.0; Undergraduate GPA: 4.7/5.0

EXPERIENCE

MIT Lincoln Laboratory

Research Assistant

Jan 2019 – May 2020

Lexington, MA

- Developed new techniques to find optimal solutions to the aircraft collision avoidance problem. Evaluated the effect of approximations on the quality of solutions.
- Created a novel simulation environment for data generation. Developed an end-to-end deep reinforcement learning pipeline, and a framework to iteratively improve the model by running experiments.

Citadel Securities

Quantitative Trading Intern

Jun – Aug 2018

Chicago, IL

- Built Python package to aggregate and standardize time-series of financial data from different sources.
- Measured the significance of market events on the price behavior of thousands of financial products using statistical techniques and time-series analysis.

IMC

Quantitative Trading Intern

Jun – Aug 2017

Chicago, IL

- Analyzed time-series of financial data using Pandas, Matplotlib, and Jupyter notebooks.
- Evaluated performance of trading strategies using regression analysis.
- Used stochastic models to predict the behavior of financial products around market events.

MIT 6.042: Math for Computer Science

Learning Assistant

Sep – Dec 2015

Cambridge, MA

- Coached a team of 7 students in problem-solving sessions 10 hours per week.
- Helped students learn how to write proofs in number theory, graph theory, and probability problems.

NextEra Energy

Software Development Intern

Jun – Aug 2015

Miami, FL

- Developed an application to find customers' addresses using their electric meter number. Used JavaScript, HTML, Java EE, and SQL to develop the front-end and services of the application.
- Planned the integration of a system to verify customers' identity using OCR on their government ID.

LEADERSHIP

MIT Sport Taekwondo: Equipment Manager ◦ MIT LoL Club: Vice-President ◦ MIT Connect Cuba Club: Treasurer

SKILLS AND PROJECTS

Projects: <https://github.com/osmany1c>: Reinforcement Learning (DQN, Policy Gradient, Policy Iteration, Collision Avoidance, Traffic Modeling), Kaggle competitions, Meme-Maker Website

Skills: Python; Pandas; Matplotlib; PyTorch; Tensorflow; MATLAB; SQL; Java; C++; R; JavaScript
